

OpenGov Release

MB Magazine June Issue

Where can I find financial information breakdowns on how the City of Miami Beach uses taxpayer dollars?

This June, the city launched an interactive financial transparency portal, which provides the public with unprecedented access to the city's fiscal information. The portal provides online access to the budget, and displays multiple views of current and historic revenue and expenses down to the fund, department and object code level. This powerful visualization software transforms volumes of raw data into actionable insight and information, enabling better analysis and understanding of the city's budget and how taxpayer money is allocated.

Maintaining budget data on OpenGov's platform answers frequently asked questions, such as "What has the city spent on police over the past five years?" or "How have tax revenues changed over the past five years?"

To access the platform, visit <https://miamibeachfl.opengov.com/transparency>.
